November 28, 2016

Citizens and Governing Board Tempe Elementary School District No. 3 Tempe, AZ 85285-7708

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Tempe Elementary School District No. 3 (District) for the fiscal year ended June 30, 2016.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2016, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2016, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

Governing Board				
Teresa Devine	Jim Lemmon	Patrick Morales	Evan Rogers	Rochelle L. Wells
		Christing Busch Superintendent		

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles & Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from preschool through grade eight, with an estimated current enrollment of 11,500 students.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, and food services.

The District encompasses an area of 36 square miles in the city of Tempe, an urban hub of the greater Phoenix metropolitan area. Tempe is the eighth largest city in the state of Arizona and is the home of the largest public university in the country, Arizona State University. The city of Tempe's central location makes it an ideal destination with easy access to work, restaurants, entertainment and recreation.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have overexpenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The greater Phoenix area, which includes the city of Tempe, continues to be an attractive place to live and work. It has been one of the most rapidly growing metropolitan areas in the country in terms of population, employment, affordable housing and retail sales. This growth has been stimulated by a combination of warm climate, a substantial well-educated labor pool, a wide range of support industries, and a governmental climate that is supportive of economic growth and investment.

The city of Tempe itself is an attractive employment location with its proximity to Sky Harbor International airport, its central location to freeway linkages to the metropolitan Phoenix area and its access to the light rail system. The city of Tempe has seen substantial growth from several major commercial developments over the last few years including Marina Heights at Tempe Town Lake and Liberty Center at Rio Salado. Financial, insurance, and technology companies now occupy approximately 19 million square feet of office space in the city. Companies like State Farm, Wells Fargo, LifeLock, First Solar and Go Daddy all have a major presence in Tempe.

Advanced manufacturing continues to be the backbone of Tempe's economy. Other industries such as information technology, advanced business systems and aerospace also have a strong presence in Tempe. Biomedical is a newly emerging sector in the city. Tempe recently approved an international biomedical and technology campus to be built along Rio Salado just west of the Tempe Center for the Arts. This will bring high quality jobs and significant investment opportunities to the area.

Tempe Town Lake continues to be not only an economic centerpiece of Tempe but a recreational one as well. It is the second most visited tourist attraction behind the Grand Canyon and hosts many local events such as the P.F. Chang's Rock and Rock Marathon and the annual New Year's Eve Block Party. Residents and visitors can enjoy many recreational activities such as rowing, sailing and biking along the lake or enjoy arts and entertainment at the Tempe Center for the Arts.

Long-term Financial Planning. The District's financial future looks positive as the economy continues to recover and student enrollment remains steady. The recent passage of Proposition 123, which provided an additional \$2.2 million to the District's budget, provides for annual inflation funding that will help with rising employee and benefit costs. In order to maintain student enrollment stability, the District continues to focus on the marketing of schools and expansion of academic programs. The District is currently exploring opening a Montessori program as another school choice for parents and students.

During fiscal year 2015-16, the District committed its remaining bond funds to the completion of Laird K-8 construction and the renovation of Arredondo School. In order to continue the recommendations set forth by the Long-Range Facility Committee, the District created a 10-year, \$165 million bond program. This program includes the complete renovation of seven schools, provides for critical maintenance activities at all District sites and replaces aging school transportation vehicles. On November 8, 2016, the voters approved a \$165 bond election to fund the 10-year plan and the District will begin planning for the renovation of the next two school sites.

AWARDS AND ACKNOWLEDGMENTS

<u>Awards</u>. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the twenty-fourth consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2016 certificates.

<u>Acknowledgments</u>. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Christine Busch Superintendent

to

Elizabeth Yeskey, CPA Assistant Superintendent of Business and Support Services

The Certificate of Excellence in Financial Reporting Award is presented to

Tempe Elementary School District No. 3

for its Comprehensive Annual Financial Report (CAFR) for the Fiscal Year Ended June 30, 2015.

The CAFR has been reviewed and met or exceeded ASBO International's Certificate of Excellence standards.

INDEPENDENT AUDITOR'S REPORT

Governing Board Tempe Elementary School District No. 3

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tempe Elementary School District No. 3 (District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Tempe Elementary School District No. 3, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, for the year ended June 30, 2016, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, net pension liability information, and other post employment benefit information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Combining and Individual Fund Financial Statements and Schedules, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2016, on our consideration of Tempe Elementary School District No. 3's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tempe Elementary School District No. 3's internal control over financial reporting and compliance.

Heinfeld, meech & Co., P.C.

Heinfeld, Meech & Co., P.C. Phoenix, Arizona November 28, 2016 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information) (This page intentionally left blank)

As management of the Tempe Elementary School District No. 3 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$5.7 million from the prior fiscal year as a result of an increase in unrestricted state aid and efforts by the District in prior years to reduce overall expenses.
- General revenues accounted for \$103.6 million in revenue, or 85 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$18.4 million or 15 percent of total current fiscal year revenues.
- The District had approximately \$116.3 million in expenses related to governmental activities, a decrease of two percent from the prior fiscal year.
- Among major funds, the General Fund had \$79.8 million in current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$77.9 million in expenditures. The General Fund's fund balance increased from \$7.6 million at the prior fiscal year end, to \$8.7 million at the end of the current fiscal year.
- The Bond Building Fund's fund balance decreased \$18.7 million as a result of the utilization of prior year bond proceeds for the demolition and reconstruction of school sites.
- Net position for the Internal Service Funds increased \$3.4 from the prior fiscal year. Operating revenues of \$12.5 million exceeded operating expenses of \$11.7 million at the end of the current fiscal year.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

OVERVIEW OF FINANCIAL STATEMENTS

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service, Unrestricted Capital Outlay, and Bond Building Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Proprietary funds. The District maintains one type of proprietary fund. The internal service funds are accounting devices used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for its insurance benefit. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements. The Insurance Benefit Fund functions for all employees of the District, and therefore has been included as an internal service fund. Other internal service funds include the Transportation Services Fund which accounts for the operation of District functions that provide goods or services to other District departments on a cost reimbursement basis. Because this activity predominately benefits governmental functions, it has been included within governmental functions, it has been included in the provide governmental functions for a cost reimbursement basis. Because this activity predominately benefits governmental functions, it has been included within governmental functions.

The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

OVERVIEW OF FINANCIAL STATEMENTS

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund as required supplementary information. Schedules for the pension plan and other postemployment benefit information have been provided as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$5.9 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2016 and June 30, 2015.

	As of June 30, 2016	As of June 30, 2015
Current and other assets	\$ 73,008,586	\$ 88,158,966
Capital assets, net	160,465,040	151,170,608
Total assets	233,473,626	239,329,574
Deferred outflows	13,088,219	15,814,044
Current and other liabilities	6,657,899	6,231,854
Long-term liabilities	225,350,938	231,779,578
Total liabilities	232,008,837	238,011,432
Deferred inflows	8,690,970	17,011,297
Net position:		
Net investment in capital assets	68,816,757	78,080,726
Restricted	15,701,861	8,085,327
Unrestricted	(78,656,580)	(86,045,164)
Total net position	\$ 5,862,038	\$ 120,889

At the end of the current fiscal year the District reported positive balances in two categories of net position. Unrestricted net position, which is normally used to meet the District's mission reported a deficit of \$78.7 million. The deficit is due to the District's proportionate share of the state pension plan's unfunded liability. The same situation held true for the prior fiscal year.

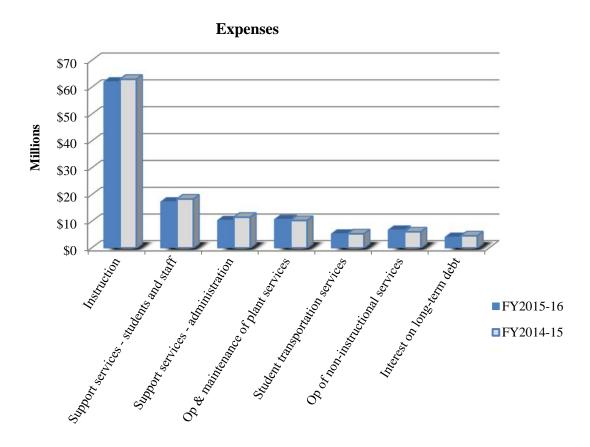

The District's financial position is the product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The principal retirement of \$12.8 million of bonds and \$416,148 of bond premium.
- The addition of \$21.0 million in capital assets through the construction of new schools, and other school improvements and purchases of vehicles, furniture and equipment.
- The disposal of \$7.9 million of assets.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Changes in net position. The District's total revenues for the current fiscal year were \$122.0 million. The total cost of all programs and services was \$115.5 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2016 and June 30, 2015.

	Fiscal Year Ended	Fiscal Year Ended	
	June 30, 2016	June 30, 2015	
Revenues:	<u>June 30, 2010</u>	June 30, 2013	
Program revenues:			
Charges for services	\$ 2,936,449	\$ 1,420,971	
Operating grants and contributions	15,050,097	19,660,855	
Capital grants and contributions	416,099		
General revenues:			
Property taxes	68,974,354	75,063,132	
Investment income	325,412	182,748	
Unrestricted county aid	2,677,945	2,635,800	
Unrestricted state aid	30,952,618	25,940,157	
Unrestricted federal aid	707,835	983,827	
Other		1,265,964

Net position, ending	\$ 5,862,038	\$ 120,889	

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following are significant current year transactions that have had an impact on the change in net position.

- Property tax revenues decreased \$6.1 million due to a decrease of the District's primary and secondary tax rates.
- Operating grants and contributions decreased \$4.6 million due to a change in presentation of Classroom Site Fund revenues to unrestricted state aid.
- Unrestricted state aid increased by \$5.0 million due to additional funding from Proposition 123.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	Year Ended June 30, 2016		Year Ended June 30, 2015	
	Total	Net (Expense)/	Total	Net (Expense)/
	Expenses	Revenue	Expenses	Revenue
Instruction	\$ 61,995,783	\$ (55,232,374)	\$ 62,967,577	\$ (53,309,476)
Support services – students and staff	17,314,563	(14,398,631)	18,370,386	(14,500,033)
Support services – administration	10,337,501	(10,300,171)	11,540,471	(11,540,471)

Student transportation services	5,237,098	(5,172,785)	5,279,882	(5,223,567)
Operation of non-instructional services	6,696,722	(81,435)	6,036,209	98,750
Interest on long-term debt	4,011,125	(3,665,948)	4,534,064	(4,186,048)
Total	\$116,299,660	\$ (97,897,015)	\$119,037,250	\$ (97,955,424)

- The cost of all governmental activities this year was \$116.3 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$18.4 million.
- Net cost of governmental activities of \$97.9 million was financed by general revenues, which are made up of primarily property taxes of \$69.0 million and state and county aid of \$33.6 million.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$47.4 million, a decrease of \$17.7 million primarily due to school renovations.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund comprises 18.3 percent of the total fund balance. Approximately \$8.6 million, or 99.4 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The fund balance increased \$1.1 million in the General Fund to \$8.7 million as of fiscal year end. General Fund revenues decreased \$126,378. General Fund expenditures decreased \$1.2 million, which is a 1.5 percent decrease from the prior year.

The Debt Service Fund's fund balance increased \$540,319 to \$3.4 million as of fiscal year end. Debt Service Fund revenues decreased \$4.0 million as a result of a decrease in the District's secondary tax rate. Debt Service Fund expenditures increased \$669,820, which is an increase of 4.1 percent from the prior year.

The Bond Building Fund's fund balance decreased \$18.7 million to \$23.7 million as of fiscal year end as a result of the utilization of prior year bond proceeds for the demolition of old buildings and the construction of new schools and renovations.

Proprietary funds. Unrestricted net position of the Internal Service Funds at the end of the fiscal year amounted to \$3.5 million. The increase of \$3.4 million from the prior fiscal year was primarily due to the establishment of the Insurance Benefit Fund. Funds from the governmental fund balance were transferred in of \$2.5 million during the year to fund first year expenses.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget for additional revenues received from Proposition 123. The difference between the original budget and the final amended budget was a \$2.3 million increase, or 2.9 percent.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variance is summarized as follows:

• The favorable variance of \$4.7 million in instruction expenditures was a result of the passage of Proposition 123 late in the fiscal year. The additional funds awarded are to be carried forward to fiscal year 2016-17 and used for employee salary increases.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$251.1 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$13.0 million from the prior fiscal year, primarily due to school renovations. Total depreciation expense for the current fiscal year was \$8.0 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2016 and June 30, 2015.

	As of	As of
	June 30, 2016	June 30, 2015
Capital assets – non-depreciable	\$ 3,337,180	\$ 3,782,834
Capital assets – depreciable, net	157,127,860	147,387,774
Total	\$ 160,465,040	\$ 151,170,608

The estimated cost to complete current construction projects is \$12.4 million.

Additional information on the District's capital assets can be found in Note 6.

Debt Administration. At year end, the District had \$118.0 million in long-term debt outstanding, \$12.8 million due within one year. Long-term debt decreased by \$12.0 million.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$221.3 million and the Class B debt limit is \$147.5 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 9 and 10.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2016-17 budget. Among them:

- Fiscal year 2015-16 budget balance carry forward (estimated \$4.0 million).
- District student population (estimated 11,500).

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased 2.4 percent to \$83.1 million in fiscal year 2016-17. Increased payroll and employee benefit costs is the primary reason for the increase. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2016-17 budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Tempe Elementary School District No. 3, 3205 South Rural Road, Tempe, Arizona 85285-7708.

LIABILITIES Due to student groups Total liabilities		79,668 79,668

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Tempe Elementary School District No. 3 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2016, the District implemented the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*. This Statement addresses accounting and financial reporting issues related to fair value measurements and establishes a hierarchy of inputs to valuation techniques used to measure fair value. This Statement also enhances accountability and transparency through revised note disclosures.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable.

The District's major operations include education, student transportation, construction and maintenance of District facilities and food services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted federal, state and county aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-Wide Financial Statements</u> – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. As permitted by generally accepted accounting principles the District applies the "early recognition" option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of debt service principal and interest due early in the following year (less than one month). Therefore, the expenditures and related liabilities have been recognized in the current period.

Property taxes, state and county aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

<u>Unrestricted Capital Outlay Fund</u> – The Unrestricted Capital Outlay Fund accounts for transactions relating to the acquisition of capital items.

<u>Bond Building Fund</u> – The Bond Building Fund accounts for proceeds from District bond issues that are expended on the acquisition or lease of sites; construction or renovation of school buildings; supplying school buildings with furniture, equipment, and technology; improving school grounds; or purchasing pupil transportation vehicles.

Additionally, the District reports the following fund types:

<u>Proprietary Funds</u> – The Proprietary Funds are Internal Service Funds that account for (1) activities related to the District's insurance programs, and (2) the operation of District functions that provide goods and services to other District departments on a cost reimbursement basis.

<u>Fiduciary Fund</u> – The Fiduciary Fund is an Agency Fund which accounts for resources held by the District on behalf of others. This fund type includes the Student Activities Fund, which accounts for monies raised by students to finance student clubs and organizations held by the District as an agent.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for health and welfare benefits and charges to District departments for goods and services. Operating expenses for internal service funds include the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The agency fund is custodial in nature and does not have a measurement focus and is reported on the accrual basis of accounting. The agency fund is reported by fund type.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash in bank, cash held by trustee and cash and investments held by the County Treasurer.

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable deposit insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

E. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements and in nonoperating revenues in the proprietary fund financial statements.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

H. Inventory

Warehouse inventories are valued at cost using the average cost method. Food service inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The United States Department of Agriculture (USDA) commodity portion of the food services inventory consists of food donated by the USDA. It is valued at estimated market prices paid by the USDA.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

J. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	15 – 50 years
Buildings and improvements	15 – 50 years
Vehicles, furniture and equipment	5 – 15 years

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

L. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

P. Net Position Flow Assumption

In the government-wide and proprietary fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

Q. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. No committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. No assigned fund balance amounts are reported.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

The table below provides detail of the major components of the District's fund balance classifications at year end.

				U	nrestricted			
			Debt		Capital	Bond		Non-Major
	-	eneral	Service		Outlay	Building	G	overnmental
		Fund	Fund		Fund	Fund		Funds
Fund Balances:								
Nonspendable:								
Inventory	\$	53,104	\$	\$		\$	\$	80,723
Restricted:								
Debt service			3,380,338					
Capital projects					7,193,973			694,925
Bond building projects						23,710,397		
Voter approved initiatives								550,934
Food service								1,761,497
Civic center								340,388
Community school								448,639
Extracurricular activities								542,111
Other purposes								46,663
Unassigned	8.	622,475						,
Total fund balances			\$3,380,338	\$	7,193,973	\$23,710,397	\$	4,465,880
			. , ,- 0 0	<u> </u>	, ,- ,-		<u> </u>	,,

NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

At year end, the District had expenditures in funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

NOTE 4 – CASH AND INVESTMENTS

Custodial Credit Risk – *Deposits*. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$100,959 and the bank balance was \$103,485. At year end, \$103,485 of the District's deposits were covered by collateral held by the pledging financial institution in the District's name.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At year end, the District's investments consisted of the following:

	Average Maturities	Fair Value		
County Treasurer's investment pool	342 days	\$	58,138,239	

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk - Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

NOTE 5 – RECEIVABLES

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major funds and non-major governmental, and internal service funds in the aggregate were as follows:

	General Fund	Unrestricted Capital Outlay Fund	Non-Major Governmental Funds
Due from other governmental entities:			
Due from federal government	\$	\$	\$ 2,379,239
Due from state government	9,156,192	378	472,465
Net due from governmental entities	\$ 9,156,192	\$ 378	\$ 2,851,704

NOTE 6 – CAPITAL ASSETS

A summary of capital asset activity for the current fiscal year follows:

Governmental Activities	Beginning Balance	Increase	Decrease	Ending Balance	
Capital assets, not being depreciated:					
Land	\$ 1,748,080	\$	\$	\$ 1,748,08	30
Construction in progress	2,034,754	 15,568,351	16,014,005	1,589,10)0
Total capital assets, not being					
depreciated	 3,782,834	 15,568,351	16,014,005	3,337,18	30
Capital assets, being depreciated:					
Land improvements	13,676,716	2,231,941	35,954	15,872,70)3
Buildings and improvements	193,113,527	15,301,994	5,494,573	202,920,94	48
Vehicles, furniture and equipment	27,553,754	 3,878,909	2,419,183	29,013,48	30
Total capital assets being depreciated	 234,343,997	 21,412,844	7,949,710	247,807,13	31
Less accumulated depreciation for:					
Land improvements	(5,613,915)	(650,430)	(5,243)	(6,259,10)2)
Buildings and improvements	(64,869,610)	(5,206,177)	(2,158,856)	(67,916,93	31)
Vehicles, furniture and equipment	 (16,472,698)	 (2,111,079)	(2,080,539)	(16,503,23	38)
Total accumulated depreciation	 (86,956,223)	 (7,967,686)	(4,244,638)	(90,679,27	71)
Total capital assets, being depreciated, net	147,387,774	13,445,158	3,705,072	157,127,86	50
Governmental activities capital assets, net	\$ 151,170,608	\$ 29,013,509	\$ 19,719,077	\$ 160,465,04	40

NOTE 6 – CAPITAL ASSETS

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 5,942,215
Support services – students and staff	248,798
Support services – administration	344,257
Operation and maintenance of plant services	265,707
Student transportation services	957,850
Operation of non-instructional services	 208,859
Total depreciation expense – governmental activities	\$ 7,967,686

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to the demolition and reconstruction of Arredondo School. At year end, the District had spent \$1.6 million on the projects and had estimated remaining contractual commitments of \$12.4 million. These projects are being funded with bond proceeds.

NOTE 7 – REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. Short-term debt activity for the current fiscal year was as follows:

	Beginning			Ending
	Balance	Issued	Redeemed	Balance
Revolving line of credit	\$	\$ 1,635,000	\$ 1,635,000	\$

NOTE 8 – LEASE OF DISTRICT PROPERTY

The District leases land to a third party under the provisions of a long-term lease agreement classified as an operating lease. Annual rental revenue from the lease is recognized in the General Fund. The lease has a remaining noncancelable lease term of 25 years through June 30, 2040. The lease has renewal options to extend the lease through June 30, 2050 and June 30, 2060. As of June 30, 2016, the renewal options have not been exercised.

NOTE 8 – LEASE OF DISTRICT PROPERTY

The future minimum payments required under the lease at June 30, 2016 are as follows:

Year Ending June 30:	
2017	\$ 264,000
2018	264,000
2019	264,000
2020	264,000
2021	286,000
2022-26	1,430,000
2027-31	1,452,000
2032-36	1,540,000
2037-40	1,232,000
Total minimum payments required	\$ 6,996,000

NOTE 9 – GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end consisted of the following outstanding general obligation bonds. The bonds are callable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt. In addition, a portion of the District's school improvements bonds are Qualified Build America Bonds (BABS). The District receives a direct subsidy payment from the United States of America for a portion of the interest payment due on the bonds.

	Original Amount	Interest	Remaining	Outstanding Principal	Due Within
Purpose	Issued	Rates	Maturities	June 30, 2016	One Year
Governmental activities:					
Refunding Bonds, Series 2004	\$ 9,925,000	4.0%	7/1/16	\$ 960,000	\$ 960,000
Refunding Bonds, Series 2004, 2nd	11,450,000	3.0-5.25%	7/1/16-17	2,960,000	1,835,000
Refunding Bonds, Series 2007	16,550,000	4.0-5.0%	7/1/16-25	11,895,000	1,210,000
School Improvement Bonds,					
(Project of 2005), Series C	25,215,000	3.0-4.0%	7/1/16-17	12,365,000	8,350,000
School Improvement Bonds,					
(Project of 2009), Series A	25,170,000	3.0-6.0%	7/1/16-27	19,395,000	400,000
School Improvement Bonds,					
(Project of 2010), Series C	37,560,000	2.0-4.0%	7/1/16-23	37,560,000	
Refunding Bonds, Series 2015	27,500,000	2.0-4.0%	7/1/16-25	27,500,000	80,000
Total				\$ 112,635,000	\$ 12,835,000

NOTE 9 - GENERAL OBLIGATION BONDS PAYABLE

Annual debt service requirements to maturity on general obligation bonds at year end are summarized as follows:

		Governmental Activities				
Year ending June 30:		 Principal	Interest			
	2017	\$ 12,835,000	\$	3,887,100		
	2018	12,150,000		3,427,406		
	2019	12,680,000		3,045,862		
	2020	13,390,000		2,660,237		
	2021	8,775,000		2,317,444		
	2022-26	48,660,000		6,351,616		
	2027-28	4,145,000		238,050		
Total		\$ 112,635,000	\$	21,927,715		

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At year end, \$25.0 million of defeased bonds are still outstanding.

NOTE 10 - CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 124,260,000	\$	\$ 11,625,000	\$ 112,635,000	\$ 12,835,000
Premium	5,750,511		416,148	5,334,363	
Total bonds payable	130,010,511		12,041,148	117,969,363	12,835,000
Other postemployment benefits	1,445,263	1,576,164	1,437,384	1,584,043	
Net pension liability	97,280,165	5,633,921		102,914,086	
Compensated absences payable	3,043,639	1,200,883	1,361,076	2,883,446	1,424,860
Governmental activity long-term					
liabilities	<u>\$ 231,779,578</u>	\$ 8,410,968	\$ 14,839,608	\$ 225,350,938	\$ 14,259,860

NOTE 11 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows:

Due to/from other funds:

	Unrestricted Capital Outlay	
	-	Fund
General Fund	\$	90,373
Non-Major Governmental Funds		1,889,729
Total Due from Other Funds	\$	1,980,102

At year end, several funds had negative cash balances in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with other funds. All interfund balances are expected to be paid within one year.

Interfund transfers:

	Transfers in			
		Non-Major		
		Debt	Governmental	
	General	Service	and Proprietary	
Transfers out	Fund	Fund	Funds	Total
General Fund	\$	\$	\$ 1,648,683	\$ 1,648,683
Bond Building Fund		215,878		215,878
Non-Major Governmental Funds	862,515		867,951	1,730,466
Total	\$ 862,515	\$ 215,878	\$ 2,516,634	\$ 3,595,027

Transfers between funds were used to (1) move investment income and premium earned in the Bond Building Fund that is required by statute to be expended in the Debt Service Fund, (2) to move federal grant funds restricted for indirect costs, and (3) to move cash balances to establish the Insurance Benefit Fund.

NOTE 12 – CONTINGENT LIABILITIES

<u>**Compliance**</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE 12 – CONTINGENT LIABILITIES

Lawsuits – The District is a party to a number of various types of lawsuits, many of which normally occur in governmental operations. The ultimate outcome of the actions is not determinable, however, District management believes that the outcome of these proceedings, either individually or in the aggregate, will not have a materially adverse effect on the accompanying financial statements.

<u>Arbitrage</u> – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

NOTE 13 – RISK MANAGEMENT

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District continues to carry commercial insurance for other risks of loss, including life, dental and short-term disability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District established the Insurance Benefit Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to employee health. In addition, employee withholdings for other insurance coverages are processed through this fund. Under this program, the Fund provides coverage for up to a maximum of \$150,000 for each claim, not to exceed an annual aggregate amount of \$10,932,008. The Fund purchases commercial insurance for claims in excess of this coverage. Settled claims have not exceeded this coverage in any of the past three fiscal years.

NOTE 13 – RISK MANAGEMENT

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Changes in the balances of claims liabilities during the past year are as follows:

	Year Ended
	June 30,
	2016
Incurred claims (including IBNRs)	\$ 8,787,263
Claim payments	(7,862,263)
Unpaid claims, end of fiscal year	\$ 925,000

NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Plan Description. District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Benefits Provided. The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:		
	Before July 1, 2011	On or After July 1, 2011	
Years of service and	Sum of years and age equals 80	30 years age 55	
age required to	10 years age 62	25 years age 60	
receive benefit	5 years age 50*	10 years age 62	
	Any years age 65	5 years age 50*	
		Any years age 65	
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months	
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%	
2	*With actuarially reduced benefits		

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.47 percent (11.35 percent for retirement and 0.12 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 11.47 percent (10.85 percent for retirement, 0.50 percent for health insurance premium benefit, and 0.12 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2016 were \$6.5 million.

NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

In addition, the District was required by statute to contribute at the actuarially determined rate of 9.36 percent (9.17 for retirement and 0.13 percent for health insurance premium benefit, and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked in positions that would typically be filled by an employee who contributes to ASRS.

The District's contributions for the current and two preceding years for OPEB, all of which were equal to the required contributions, were as follows:

	Health Benefit Supplement Fund		ng-Term isability Fund
Year ending June 30:			
2016	\$	301,181	\$ 72,284
2015		348,213	70,823
2014		332,035	132,814

Pension Liability. At June 30, 2016, the District reported a liability of \$102.9 million for its proportionate share of the net pension liability of the ASRS. The net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2014, to the measurement date of June 30, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the District's proportion was 0.66 percent, which was the same as its proportion measured as of June 30, 2014.

Pension Expense and Deferred Outflows/Inflows of Resources. For the year ended June 30, 2016, the District recognized pension expense of \$6.3 million and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		Deferred
	С	Outflows of	Ι	nflows of
]	Resources]	Resources
Differences between expected and actual experience	\$	2,808,302	\$	5,392,802
Net difference between projected and actual earnings on				
pension plan investments				3,298,168
Changes in proportion and differences between				
contributions and proportionate share of contributions		1,133,598		
Contributions subsequent to the measurement date		6,535,636		
Total	\$	10,477,536	\$	8,690,970

NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30: 2017 \$ (1,426,698) 2018 (3,353,091) 2019 (2,350,146) 2020 2,380,865

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2014
Actuarial roll forward date	June 30, 2015
Actuarial cost method	Entry age normal
Investment rate of return	8.0%
Projected salary increases	3.0-6.75%
Inflation	3.0%
Permanent base increases	Included
Mortality rates	1994 GAM Scale BB

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Equity	58%	6.79%
Fixed income	25	3.70
Real estate	10	4.25
Multi-asset	5	3.41
Commodities	2	3.93
Total	100%	

Discount Rate. The discount rate used to measure the ASRS total pension liability was 8.0 percent, which is less than the long-term expected rate of return of 8.79 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current				
	1% Decrease Discount Rate 1% Incr				
	(7.0%)	(8.0%)	(9.0%)		
Proportionate share of the net					
pension liability	\$134,852,621	\$102,914,086	\$81,025,722		

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

NOTE 15 – OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN

Plan Description. Under authority of the Governing Board, the District provides postretirement insurance (health and dental) benefits, for certain retirees and their dependents, in accordance with the plan. The plan is a single-employer defined benefit plan administered by the District. The District contributes \$7,200 per employee per year of health premiums for employees who retire with 10 years of service and retires before July 1, 2009 or 20 years of service and retires on or after July 1, 2009 and has reached age 55. For the current fiscal year, the District contributed \$1.4 million for these benefits. The District's regular insurance providers underwrite the retiree policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. A separate financial report is not issued for the plan. The number of participants as of the effective date of the biannual OPEB valuation follows:

	Participants
Active employees	1,336
Retired employees	221
Total	1,557

Funding Policy. The District currently pays for postemployment benefits on a pay-as-you-go basis. Generally, resources from the General Fund are used to pay for postemployment benefits.

Annual OPEB Cost and Net OPEB Obligation. The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation.

Annual required contribution	\$ 1,426,221
Interest on net OPEB obligation	65,037
Adjustment to annual required contribution	 84,906
Annual OPEB cost (expense)	1,576,164
Contributions made	1,437,384
Increase in net OPEB obligation	 138,780
Net OPEB obligation – beginning of year	 1,445,263
Net OPEB obligation – end of year	\$ 1,584,043

NOTE 15 – OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year ended June 30, 2016 and the two preceding years is as follows:

					Percentage	of		
Fiscal Year		Annual	An	nual OPEB	Annual OPE	EB	N	let OPEB
Ended	C	OPEB Cost	Cost	Contributed	Cost Contribu	ited	C	Obligation
June 30, 2016	\$	1,576,164	\$	1,437,384	91%		\$	1,584,043
June 30, 2015		1,426,221		2,052,485	144			1,445,263
June 30, 2014		1,586,342		2,206,699	139			2,071,527

Funded Status and Funding Progress. As of July 1, 2014, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$19.5 million, resulting in an unfunded actuarial liability (UAAL) of \$19.5 million. The covered payroll (annual payroll of active employees covered by the plan) was \$53.7 million, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 36.3 percent. The schedule of funding progress for the post employment defined benefit plan is disclosed immediately following the notes to the financial statements and includes multiyear trend information.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The projection of future benefit payments involves estimates of the value of reported amounts and assumptions about the probability of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Amounts determined and the funded status of the plan and the annual required contributions of the District are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The more significant actuarial assumptions and methods used in the calculation of the employer contributions for the current fiscal year were as follows:

Valuation date	June 30, 2014
Actuarial cost method	Entry age normal, level dollar amount
Amortization method for	
actuarial accrued liabilities	30 years, level dollar amount
Remaining amortization period	29 years as of June 30, 2016
Interest rate	4.50%
Inflation rate	N/A
Projected salary increases	N/A
Health care cost trend rate:	
Medical and Prescription Drug	5%

NOTE 15 – OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

NOTE 16 – SUBSEQUENT EVENT

On November 8, 2016, voters authorized the District to issue \$165.0 million of school improvement bonds. The purpose of the bonds is primarily to demolish and rebuild several schools within the District.

TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2016

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following item.

• Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.

The following schedule reconciles expenditures and fund balances at the end of year:

	Total	Fund Balances
	Expenditures	End of Year
Statement of Revenues, Expenditures and Changes in		
Fund Balances – Governmental Funds	\$ 77,938,381	\$ 8,675,579
Activity budgeted as special revenue funds	(2,397,007)	(1,741,972)
Schedule of Revenues, Expenditures and Changes in		
Fund Balances – Budget and Actual – General Fund	\$ 75,541,374	\$ 6,933,607

NOTE 2 – PENSION PLAN SCHEDULES

Change in Accounting Principle. For the year ended June 30, 2016, the District implemented the provisions of GASB Statement No. 82, *Pension Issues*. The statement changed the measure of payroll that is required to be presented in required supplementary information from covered-employee payroll to covered payroll. Accordingly, payroll amounts presented in the pension plan schedules and related ratios for prior periods have been restated.

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2014, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2014, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

SPECIAL REVENUE FUNDS

<u>Classroom Site</u> - to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

Instructional Improvement - to account for the activity of monies received from gaming revenue.

<u>County, City and Town Grants</u> - to account for monies received from county, city and town grants.

<u>**Title I Grants</u>** - to account for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging State academic standards.</u>

Professional Development and Technology Grants - to account for financial assistance received to increase student academic achievement through improving teacher quality.

<u>**Title IV Grants</u>** - to account for financial assistance received for chemical abuse awareness programs and expanding projects that benefit educational and health needs of the communities.</u>

<u>Limited English and Immigrant Students</u> - to account for financial assistance received for educational services and costs for limited English and immigrant children.

Indian Education - to account for financial assistance received for Indian education at preschool, elementary, secondary and adult levels.

Special Education Grants - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

<u>Johnson-O'Malley</u> - to account for financial assistance received to meet the unique educational needs of eligible Indian children.

<u>Medicaid Reimbursement</u> - to account for reimbursements related to specific health services provided to eligible students.

 $\underline{\mathbf{E-Rate}}$ - to account for financial assistance received for broadband internet and telecommunication costs.

<u>Other Federal Projects</u> - to account for financial assistance received for other supplemental federal projects.

Other State Projects - to account for financial assistance received for other State projects.

<u>School Plant</u> - to account for proceeds from the sale or lease of school property.

<u>Food Service</u> - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>**Civic Center</u>** - to account for monies received from the rental of school facilities for civic activities.</u>

<u>Community School</u> - to account for activity related to academic and skill development for all citizens.

Extracurricular Activities Fees Tax Credit - to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

<u>Gifts and Donations</u> - to account for activity related to gifts, donations, bequests and private grants made to the District.

<u>Fingerprint</u> - to account for activity of fingerprinting employees as mandated by the State.

Insurance Proceeds - to account for the monies received from insurance claims.

<u>**Textbooks</u>** - to account for monies received from students to replace or repair lost or damaged textbooks.</u>

<u>Litigation Recovery</u> - to account for monies received for and derived from litigation.

Indirect Costs - to account for monies received from federal projects for administrative costs.

Insurance Refund - to account for insurance premium payments that are refunded to the District.

<u>Advertisement</u> - to account for monies received from the sale of advertising.

<u>Intergovernmental Agreements</u> - to account for the financial activities relating to agreements with other governments not required to be accounted for elsewhere.

STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to 5 percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: The source of this information is the State and County Abstract of the Assessment Roll, Arizona Department of Revenue.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirements and other voter-approved overrides
