Governing Board and Citizens Tempe Elementary School District No. 3 P.O. Box 27708 Tempe, Arizona 85285-7708

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Tempe Elementary School District No. 3 (the District) for the fiscal year ended June 30, 2021.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by CliftonLarsonAllen LLP, a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

**Governing Board** 

Allison Ewers Jim Lemmon Patrick Morales Monica Trejo Charlotte Winsor

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles & Audit Requirements for Federal Awards (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from preschool through grade eight, with an estimated current enrollment of 10,399 students.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, and food services.

The District encompasses an area of 36 square miles in the City of Tempe, an urban hub of the greater Phoenix metropolitan area. Tempe is the eighth largest city in the state of Arizona and is the home of one of the largest public university in the country, Arizona State University. The City of Tempe's central location makes it an ideal destination with easy access to work, restaurants, entertainment and recreation.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

#### **FACTORS AFFECTING FINANCIAL CONDITION**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

<u>Local Economy</u>. Despite the challenges presented by COVID-19, the greater Phoenix area, which includes the City of Tempe, has remained one of the most rapidly growing metropolitan areas in the country in terms of population, employment, and retail sales. Tempe's proximity to Arizona State University helps provide a well-educated labor pool that gives the area support for economic growth and investment.

The City of Tempe itself is an attractive employment location with its proximity to Sky Harbor International airport, its central location to freeways to the metropolitan Phoenix area and its access to the light rail system. The City of Tempe has seen substantial growth from several major commercial developments over the last few years including Marina Heights at Tempe Town Lake and Liberty Center at Rio Salado. Financial, insurance, and technology companies now occupy approximately 19 million square feet of office space in the City. Companies like State Farm, Wells Fargo, LifeLock, First Solar, and Go Daddy all have a major presence in Tempe.

Advanced manufacturing continues to be the backbone of Tempe's economy. Other industries such as information technology, advanced business systems and aerospace also have a strong presence in Tempe. Biomedical is a newly emerging sector in the City. IDEA Tempe opened last year on an international biomedical and technology campus along Rio Salado just west of the Tempe Center for the Arts. This will bring high quality jobs and significant investment opportunities to the area.

Tempe Town Lake continues to be not only an economic centerpiece of Tempe, with more than 40,000 people working within a mile of the lake, but a recreational one as well. It is the second most visited tourist attraction behind the Grand Canyon and hosts many local events such as the P.F. Chang's Rock 'n' Roll Marathon and the annual New Year's Eve Block Party. Residents and visitors can enjoy many socially distanced recreational activities such as rowing, sailing and biking along the lake or enjoy arts and entertainment at the Tempe Center for the Arts.

Long-term Financial Planning. The District has remained financially stable as COVID-19 has created new challenges and uncertainties. Shortly before COVID emerged, the District received voter support in November of 2019 for budget overrides for District Additional Assistance (DAA) and Maintenance and Operations (M&O). The DAA override will provide \$5 million annually for seven years for musical instruments, school-based educational technology, school furniture and equipment, and information, management and security technology systems district wide. The M&O override will provide approximately \$9.7 million annually to maintain smaller class sizes in kindergarten through fifth grades, provide general and instrumental music in preschool through 8th grades, physical education classes, gifted education programs, counseling services in every school and additional support for students to increase academic achievement. The overrides will give the District greater flexibility and stability moving forward while dealing with COVID-19.

The District continues to invest in increasing teacher compensation. In recent years, the state appropriated additional funds for districts to increase teacher salaries over three years and reduced the yearly cuts of district additional assistance. Because of this, the District was able to give 11% raises to teachers in the first year, 5% raises in the second year, and 3.5% raises in the third year, which has helped with the recruitment and retention of qualified staff. The District will continue to infuse available funds into teacher compensation in order to remain competitive in future years.

Renovation and replacement of outdated schools with funds from a \$165 million voter approved bond program remain a priority of the District. The District's schools were built in the 1950s, 1960s and 1970s. In 2003-2004, the District approved a Long-Range Facility Plan to make school sites more operationally efficient and designed to meet 21st century learning. Since 2005, the District has systematically renovated 13 of the 22 school sites and is currently renovating McKemy Academy of International Studies. The District has begun the design process for the rebuild of Gililland Middle School with construction expected to be completed in 2023.

<u>Awards</u>. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2020. This was the 33rd consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2020. In order to be awarded these certificates, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2021 certificates.

Governing Board and Citizens Tempe Elementary School District No. 3

<u>Acknowledgments</u>. The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Dr. James Driscoll Superintendent

Eric Thompson, CPA Chief Financial Officer

#### **INDEPENDENT AUDITORS' REPORT**

Governing Board Tempe Elementary School District No. 3 Tempe, Arizona

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tempe Elementary School District No. 3, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Tempe Elementary School District No. 3 as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension schedules, OPEB schedules and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Tempe Elementary School District No. 3's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 28, 2022, on our consideration of Tempe Elementary School District No. 3's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Tempe Elementary School District No. 3's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tempe Elementary School District No. 3's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

Phoenix, Arizona January 28, 2022

## REQUIRED SUPPLEMENTARY INFORMATION

As management of the Tempe Elementary School District No. 3 (the District), we offer the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021.

#### FINANCIAL HIGHLIGHTS

- ♦ The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$36,136,737 (net position).
- ◆ The District's total net position increased by \$1,792,744.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$57,459,149, a decrease of \$16,128,669 in comparison with the prior year. The most significant factor for the decrease was the expending of prior year bond proceeds.
- ♦ At the end of the current fiscal year, unassigned fund balance for the General Fund was \$17,149,365, or 18.8% of total General Fund expenditures.
- ◆ The District's total bonded debt decreased by \$13,475,000 (9%) during the current fiscal year. The decrease was due to the regularly scheduled principal payments.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference being reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements present functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District are for public education.

The government-wide financial statements can be found immediately following this MD&A.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

♦ Governmental Funds — Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Special Projects Fund, Bond Building Fund, Unrestricted Capital Outlay Fund and Debt Service Fund, all of which are considered to be major funds. Data from the other seven governmental funds are combined into a single, aggregated presentation.

An operating budget for expenditures is prepared and adopted by the District each fiscal year for the General, Special Revenue, Debt Service, and Capital Projects Funds. Budgetary control is ultimately exercised at the fund level. Budgetary control is maintained through the use of periodic reports that compare actual expenditures against budgeted amounts. The expenditure budget can be revised annually, per Arizona Revised Statutes. The District also maintains an encumbrance accounting system as one technique of maintaining budgetary control. Encumbered amounts lapse at year-end. An annual budget of revenue from all sources is not prepared.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The basic governmental fund financial statements can be found on pages 23 - 28 of this report.

Proprietary Funds – The District maintains one type of proprietary fund. The internal service funds are accounting devices used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for its self-insurance and transportation activities. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements. The Insurance Benefit Fund functions for all employees of the District, and therefore has been included as an internal service fund. The other internal service fund includes the Transportation Services Fund which accounts for the operation of District functions that provide goods or services to other District departments on a cost reimbursement basis. Because this activity predominately benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 29 - 31 of this report.

#### **Notes to Basic Financial Statements**

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 32 - 56 of this report.

#### Required Supplementary Information Other Than MD&A

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's pension, OPEB and the budgetary schedule of the General Fund and Special Projects Fund. Required supplementary information may be found on pages 57 - 61.

Governments have the option of presenting budgetary comparison schedules for the General Fund and major Special Revenue Funds as part of the basic financial statements or as required supplementary information other than MD&A. The District has presented the General Fund and Special Projects Fund budgetary comparison schedules as required supplementary information.

#### Other Information

The combining and individual fund financial statements are presented immediately following the note to required supplementary information. Combining and individual fund statements and schedules can be found on pages 62 - 78 of this report.

The statistical section includes selected financial demographic information, generally presented on a multi-year basis. The statistical section can be found on pages 79 – 102 of this report.

#### **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as useful indicators of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$36,136,737 at the close of the most recent fiscal year.

#### **Net Position**

A Summary of the District's statement of net position is as follows:

Table A-1
The District's Net Position

	Governmental Activities				
	2021	2020	% Change		
Assets:					
Current and Other Assets	\$ 88,099,990	\$ 107,740,084	(18.2)%		
Capital Assets, Net	224,229,087	215,465,676	4.1		
Total Assets	312,329,077	323,205,760	(3.4)		
Deferred Outflows of Resources	32,271,253	16,175,661	99.5		
Liabilities:					
Current and Other Liabilities	22,801,485	10,824,525	110.6		
Long-Term Liabilities	282,599,357	284,911,595	(8.0)		
Total Liabilities	305,400,842	295,736,120	3.3		
Deferred Inflows of Resources	3,062,751	9,301,308	(67.1)		
Net Position:					
Net Investment in Capital Assets	107,496,396	87,520,131	22.8		
Restricted	17,290,732	19,658,619	(12.0)		
Unrestricted	(88,650,391)	(72,834,757)	(21.7)		
Total Net Position	\$ 36,136,737	\$ 34,343,993	5.2		

By far the largest portion of the District's net position reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment). The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the District was able to report positive balances in the net investment of capital assets and restricted net position. Unrestricted net position reported a deficit of \$(88,650,391). The deficit is mainly due to the implementation of GASB No. 68 in a prior year which recorded the District's pension liability. The District's net position increased by \$1,792,744 during the current fiscal year.

#### **Changes in Net Position**

A summary of the District's statement of activities is as follows:

Table A-2
Changes in Net Position

	Governmental Activities				es	
	2021		2020		% Change	
REVENUES	-					
Program Revenues:						
Charges for Services	\$	289,365	\$	3,368,610	(91.4)	%
Operating Grants and Contributions		27,454,495		18,024,180	52.3	
Capital Grants and Contributions		2,815,445		2,189,807	28.6	
General Revenues:						
Property Taxes		76,885,315		74,185,738	3.6	
Unrestricted State, County and Federal Aid		36,551,529		45,136,941	(19.0)	,
Investment Earnings		703,245		2,101,479	(66.5)	)
Other		2,272,444			100.0	
Total Revenues		146,971,838		145,006,755	1.4	
EXPENSES						
Instruction		81,644,576		78,144,575	4.5	
Support Services:						
Students and Staff		23,373,001		19,734,189	18.4	
Administration		12,906,726		13,753,415	(6.2)	)
Operation and Maintenance of Plant		12,344,779		11,608,596	6.3	
Student Transportation		4,602,263		6,442,744	(28.6)	)
Operation of Noninstructional Services		5,671,966		7,450,710	(23.9)	)
Interest on Long-Term Debt		4,635,783		5,247,156	(11.7)	)
Total Expenses		145,179,094		142,381,385	2.0	
CHANGE IN NET POSITION		1,792,744		2,625,370	(31.7)	i
Net Position - Beginning of Year		34,343,993		31,718,623	8.3	
NET POSITION - END OF YEAR	\$	36,136,737	\$	34,343,993	5.2	

Charges for Services decreased \$3,079,245 (91.4%) mainly due to a decrease in food service revenue due to the COVID-19 pandemic and due to the District reclassifying some of its revenues.

Operating Grants and Contributions increased \$9,430,315 (52.3%) due to the District receiving additional grant funding due to the COVID-19 pandemic.

Capital Grants and Contributions increased \$625,638 due to the District receiving monies from the School Facilities Board for roof repair projects in the prior year.

Property tax revenues increased overall by \$2,699,577 (3.6%) mainly due to an increase in property tax assessed values.

Investment Earnings decreased \$1,398,234 (66.5%) due to lower average cash balances through the year as well as decreased interest rates.

The change in Unrestricted State, County, and Federal Aid and Other Revenue of \$8,585,412 (19.0%) was due to decreased state aid.

Expenses increased \$2,797,709 or 2.0% mainly from increases in personnel costs for employee compensation increases.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$57,459,149, a decrease of \$16,128,669 in comparison with the prior year. Approximately 29.8% of this total amount (\$17,149,365) constitutes unassigned fund balance, which is available for spending at the government's discretion. Additionally, 40.4% (\$23,230,996) of fund balance is restricted in the Bond Building Fund from bond proceeds received. The remainder is either in nonspendable form or restricted to indicate that is not available for new spending.

At June 30, 2021, fund balances were as follows:

Table A-3 Fund Balances

Fund	 Balance	Increase (Decrease) From 2019-20		
General Fund	\$ 17,260,615	\$	1,844,534	
Special Projects Fund	181,045		1,999,783	
Bond Building Fund	23,230,996		(17,632,850)	
Unrestricted Capital Outlay Fund	10,734,165		611,201	
Debt Service Fund	2,230,584		(1,722,063)	
Nonmajor Governmental Funds	3,821,744		(1,229,274)	

The General Fund increase of \$1,844,534 was primarily due to increases in property tax revenue and a slight decline in spending.

The Special Projects Fund increase of \$1,999,783 was mainly due to the District reporting a deficit balance in the prior year due to grants owed at year-end.

The Bond Building decrease of \$17,632,850 was primarily due to the District expending bond proceeds from the issuance of new bonds in the prior year.

The Unrestricted Capital Fund increase was due to a reduction in spending during the current year.

The Debt Service Fund decrease of \$1,722,063 was a result of a decrease in property tax revenue allocated for debt service.

The Nonmajor Governmental Funds decrease of \$1,229,274 was mostly due to the District expending adjacent ways carryover funds.

*Proprietary Funds* – Unrestricted net position of the Internal Service Funds as the end of the fiscal year amounted to \$6.0 million, which is a decrease of \$1,709,660 from the prior fiscal year.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

Differences between the original budget and the final amended budget totaled \$3,156,150. In Arizona, school districts build their original "adopted" budget based on the previous year's 100th day average daily attendance. The District is allowed to increase or decrease its budget. The most significant factors for the decrease in budgeted expenditures were decreases in Regular Education and Pupil Transportation.

Actual expenditures of the General Fund were \$3,587,246 less than the final budget amounts due to the District reserving funds for future purchases.

#### **CAPITAL ASSET AND DEBT ADMINISTRATION**

#### **Capital Assets**

The District's investment in capital assets for its governmental activities as of June 30, 2021, amounts to \$224,229,087 (net of accumulated depreciation). This net investment in capital assets includes land, construction in progress, land improvements, buildings and improvements, and furniture, equipment and vehicles. The net increase in the District's net investment in capital assets for the current fiscal year was 4.1%.

The following schedule presents a summary of capital asset balances for the fiscal years ending June 30, 2021, and June 30, 2020:

Table A-4
Capital Assets (Net)

		Governmental Activities				
	2021			2020		
Land	\$	1,748,080	\$	1,748,080		
Construction in Progress		17,537,024		21,551,507		
Land Improvements		17,026,054		14,068,981		
Buildings and Improvements		175,491,671		164,364,070		
Furniture, Equipment, and Vehicles		12,426,258		13,733,038		
Total Capital Assets, Net	\$	224,229,087	\$	215,465,676		

Additional information on the District's capital assets can be found in Note 3.A.4. of this report.

#### **Long-Term Debt**

At the end of the current fiscal year, the District had total bonded debt outstanding of \$138,845,000. This debt is backed by the full faith and credit of the District.

### Table A-5 Outstanding Obligations

	Governmental Activities				
	2021			2020	
	·			_	
Bonds Payable	\$	138,845,000	\$	152,320,000	
Premium on Bonds Payable		15,810,498		17,762,526	
Total Outstanding Debt	\$	154,655,498	\$	170,082,526	

The District's bonded debt decreased by \$13,475,000 ( 8.8 %) during the current fiscal year. This change was due to the issuance of new bonds offset by regularly scheduled principal payments.

The District's general obligation bonds are subject to a Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15% of the net full cash value). The current total debt limitation for the District is \$366,577,457 which is more than the District's total outstanding general obligation bonded debt. At June 30, 2021 the District's net Class B bonded debt outstanding was \$138,845,000 which was below the Class B debt limit. Additional information on the legal debt limit can be found on page 98.

Additional information on the District's long-term debt can be found in Note 3.C. of this report.

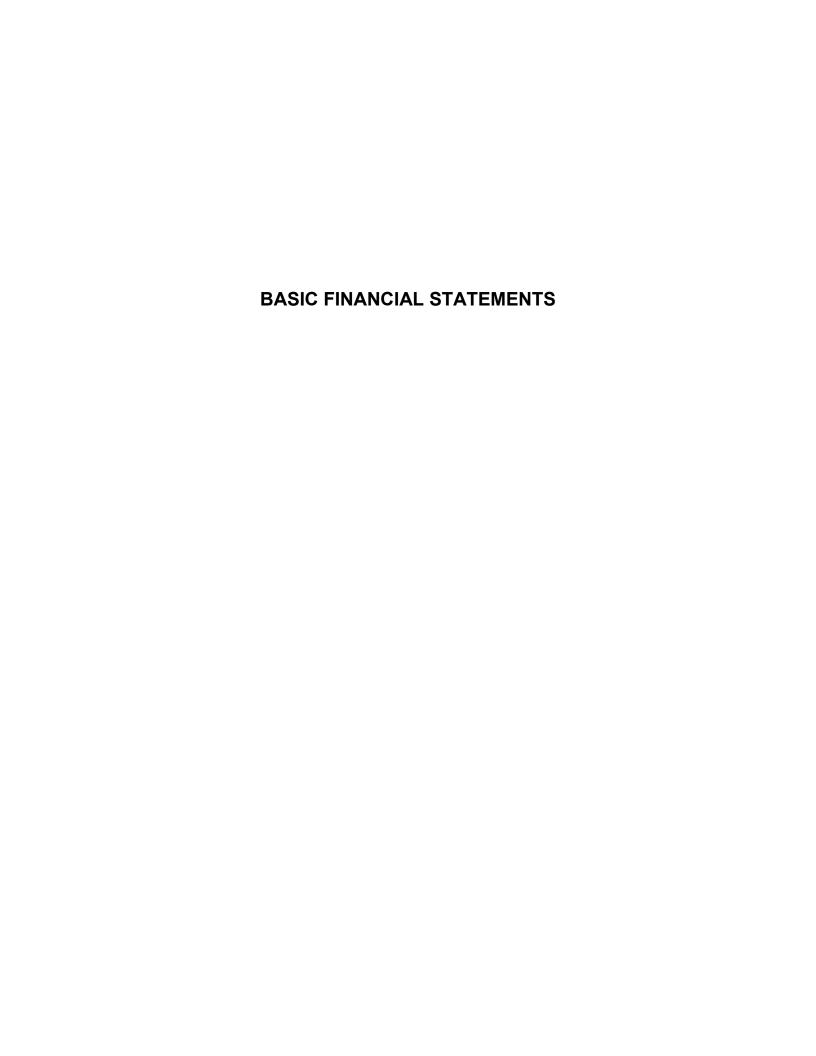

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

Many factors were considered by the District's administration during the process of developing the fiscal year 2021-22 budget. Among them:

- Uncertainty regarding enrollment levels due to COVID-19
- An increase in District health insurance contributions of 13%
- Funding of a new Arizona Online Instruction school
- Planning for large federal grants related to COVID-19
- Increasing employee pay (1%) with declining enrollment
- Providing resources to offer on-line and in-person instruction

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Tempe Elementary School District No. 3 Business and Finance Department, 3205 S. Rural Road, Tempe, Arizona, 85282.

#### **TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3** RECONCILIATION OF THE STATEMENT OF REVENUE, EXPENDITURES, AND CHANGE IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2021

Net Change in Fund Balances-Total Governmental Funds

(16,116,259)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for Capital Assets	20,972,975
Less: Current Year Depreciation	(10,458,047)
Excess Capital Expenditures Over Depreciation	10,514,928

The statement of activities reports losses arising from the disposal of existing capital assets. Conversely, governmental funds do not report any gain or loss on disposals of capital assets. (1,751,517)

Property tax and intergovernmental revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

(791,301)

The issuance of long term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The issuance of long term debt increases long term liabilities on the statement of net position and the repayment of principal on long term debt reduces long term debt on the statement of net position.

Principal Payments on Bonds	13,280,000
Deferred Amount on Refunding	(300,061)
Amortization of Premium	1,952,028

Governmental funds report District pension and OPEB contributions as expenditures when made. However in the Statement of Activities, pension and OPEB expense is the cost of benefits earned, adjusted for member contributions, the recognition of changes in deferred outflows and inflows or resources related to pensions and OPEB, and the investment experience.

OPEB Contributions	1,643,661
OPEB Expense	(1,062,351)
Pension Contributions	8,841,222
Pension Expense	(12,578,649)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Net Increase in Compensated Absences	(116,887)
Change in Inventory Balances	(12,410)

The Internal Service Fund is used by management to charge the cost of insurance to the individual funds. The changes in net position of the Internal Service Fund is reported with governmental activities in the Statement of Activities.

(1,709,660)

Change in Net Position of Governmental Activities

1,792,744

### NOTES TO BASIC FINANCIAL STATEMENTS

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Tempe Elementary School District No. 3 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the District's more significant accounting policies follows.

#### A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable.

The District's major operations include education, student transportation, construction and maintenance of District facilities and food services.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. The effect of interfund activity has been removed from these statements. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. However, since debt service resources are provided during the current year for payment of long-term principal and interest due early in the following year (within one month), the expenditures and related liabilities have been recognized in the Debt Service Fund.

Property taxes, intergovernmental grants and aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The District reports the following major governmental funds:

#### Major Governmental Funds

#### **General Fund**

The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. It is described as the Maintenance and Operation Fund by Arizona Revised Statutes (A.R.S.) and is budgeted within five subsections titled regular education programs, special education programs, pupil transportation, desegregation, and special K-3 reading program.

#### Special Projects Fund

The Special Projects Fund, a Special Revenue Fund accounts for the revenues and expenditures of state and federally funded educational grants.

#### **Unrestricted Capital Outlay Fund**

The Unrestricted Capital Outlay Fund accounts for transactions relating to the acquisition of items by purchase, lease-purchase, or lease as prescribed by A.R.S. §15-903(C).

#### **Bond Building Fund**

The Bond Building Fund, a Capital Projects Fund, accounts for monies received from District bond issues that are used to acquire sites, construct school buildings, supply school buildings with furniture and apparatus, improve school grounds, and purchase pupil transportation vehicles.

#### **Debt Service Fund**

The Debt Service Fund accounts for resources accumulated and used for the payment of long-term debt principal, interest, and related costs.

Additionally, the District reports the following fund type:

#### **Proprietary Funds**

The Proprietary Fund is an Internal Service Fund that accounts for activities related to the District's transportation services and insurance benefits.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

#### Proprietary Funds (Continued)

The proprietary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for health and welfare benefits and charges to District departments and other governments for transportation services. Operating expenses for internal service funds include the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use for governmental activities, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

#### 1. Deposits and Investments

The District's cash and investments include cash on hand, demand deposits, and cash and investments held by the County Treasurer.

A.R.S. require the District to deposit certain cash with the County Treasurer. That cash is pooled for investment purposes, except for cash in the Debt Service and Bond Building Funds, which is invested separately. As required by statute, interest earned by the Debt Service and Bond Building Funds is recorded in the Debt Service Fund.

A.R.S. authorize the District to invest public monies in the State and County Treasurer's investment pools; U.S. Treasury obligations; specified state and local government bonds; and interest-earning investment contracts such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (Continued)

#### 1. Deposits and Investments (Continued)

The State Board of Deposit provides oversight for the State Treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant's position in the pool approximates the value of that participant's pool shares. No comparable oversight is provided for the County Treasurer's investment pool, and that pool's structure does not provide for shares.

#### 2. Receivables

Maricopa County levies real property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. However, a lien against real and personal property assessed attaches on the first day of January preceding assessment and levy thereof.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### 3. Short-Term Interfund Receivables/Payables

During the course of operations, individual funds within the District's pooled cash accounts may borrow money from the other funds within the pool on a short-term basis. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the fund financial statements and are eliminated in the preparation of the government-wide financial statements.

#### 4. Inventories

Inventories consist of expendable supplies held for consumption. Inventories are valued at cost using the first-in/first-out (FIFO) method. In addition, certain payments to vendors reflect costs applicable to future accounting periods. Inventories of governmental funds are recorded as expenses when consumed rather than when purchased in the government-wide statements and are recorded as an expenditure at the time of purchase in the fund financial statements.

#### 5. Restricted Assets

Proceeds of the District's bonds are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (Continued)

#### 6. Capital Assets

Capital assets, which include land, construction in progress, land improvements, buildings and improvements, furniture, equipment and vehicles are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Capital assets purchased or acquired are carried at historical cost or estimated historical cost. Donated assets are recorded at the acquisition value. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

Land Improvements 15 to 50 Years
Buildings and Improvements 15 to 80 Years
Furniture, Equipment, and Vehicles 5 to 15 Years

#### 7. Deferred Outflows of Resources

The District recognizes the consumption of net position that is applicable to a future reporting period as deferred outflows of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions, OPEB and deferred outflows from the refunding of bonds.

#### 8. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (Continued)

#### 9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the statements of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 10. Pension Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arizona State Retirement System (ASRS) and additions to/deductions from ASRS fiduciary net position have been determined on the same basis as they are reported by ASRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 11. Deferred Inflows of Resources

The deferred inflows of resources reported in the governmental fund financial statements represent resources that are not available to the District as of June 30, 2021 or within 60 days of fiscal year-end. The deferred inflows of resources represent a reconciling item between the governmental fund financial statements and the government-wide financial statements.

The District also recognizes the acquisition of net position that is applicable to a future reporting period as deferred inflows of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions and OPEB.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (Continued)

#### 12. Net Position

In the government-wide financial statements, net position is reported in three categories: net investment in capital assets; restricted net position; and unrestricted net position. Net investment in capital assets is separately reported because the District reports all District assets which make up a significant portion of total net position. Restricted net position account for the portion of net position restricted by parties outside the District. Unrestricted net position is the remaining net position not included in the previous two categories.

#### 13. Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories, or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

Committed fund balances are self-imposed limitations approved by the District's Governing Board, which is the highest level of decision-making authority within the District. Only the Governing Board can remove or change the constraints placed on committed fund balances.

Assigned fund balances are resources constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The Governing Board has authorized the Assistant Superintendent of Administrative Services to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (Continued)

#### 13. Fund Balance Classifications (Continued)

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the District's policy to use restricted fund balance first. For the disbursement of unrestricted fund balances, it is the District's policy to use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

#### NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### A. Budgetary Information

The District adopts an annual operating budget for expenditures for all governmental fund types, on essentially the same modified accrual basis of accounting used to record actual expenditures. The Governing Board presents a proposed budget to the Superintendent of Public Instruction and County School Superintendent on or by July 5. The Governing Board legally adopts the final budget by July 15, after a public hearing has been held. Once adopted the budget can be increased or decreased only for specific reasons set forth in the A.R.S. All appropriations lapse at year-end. An annual budget of revenue from all sources is not prepared.

Budgetary control over expenditures is exercised at the fund level. However, the General Fund is budgeted within five subsections (see preceding description of General Fund), any of which may be over expended with the prior approval of the Governing Board at a public meeting, providing the expenditures for all subsections do not exceed the General Fund's total budget.

#### NOTE 3 DETAILED NOTES ON ALL FUNDS

#### A. Assets

#### 1. Deposits and Investments

Deposits and investments at June 30, 2021 consist of the following:

Deposits:

Cash in Bank	\$	154,266
Cash on Deposit with County Treasurer		70,972,531
Total Deposits	·	71,126,797
Less: Restricted Assets		(24,894,368)
Total Cash and Investments	\$	46.232.429

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### A. Assets (Continued)

#### 1. Deposits and Investments (Continued)

#### **Deposits**

The carrying amount on the District's deposits at June 30, 2021, was \$154,266 and the bank balance was \$424,422. Of the bank balance, \$250,000 was insured by federal depository insurance and the remainder (\$174,422) was insured by the statewide pooled collateral program.

#### **Investments**

At June 30, 2021, the District's investments were reported at fair value. The District's investments consisted of cash on deposit with the County Treasurer.

Custodial Credit Risk – The District does not have a formal policy for custodial credit risk. The District's investment in the County Treasurer's investment pools represents a proportionate interest in those pools' portfolios; however, the District's portion is not identified with specific investment and is not subject to custodial credit risk.

Interest Rate Risk – The District does not have a formal investment policy regarding interest rate risk, however, the District manages its exposure to declines in fair value by limiting the average maturity of its investment portfolio to one year or less.

Credit Risk – The District does not have a formal investment policy regarding credit risk. However, the District is prohibited by State law from investing in investments other than State and County Treasurer's investment pools, U.S. Treasury obligations, specified state and local government bonds and interest-earning investment contracts such as savings accounts, certificates of deposit, and repurchase agreements. The District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Concentration of Credit Risk – The District does not have an investment policy with respect to concentration credit risk. The District's investments consist of cash and investments on deposit with County Treasurer previously discussed.

#### 2. Restricted Assets

Restricted assets at June 30, 2021, consisted of the following:

 $\begin{tabular}{lll} Bond Building \\ \hline Fund \\ \hline Future Construction & $24,894,368$ \\ \hline \end{tabular}$ 

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### A. Assets (Continued)

#### 3. Receivables

The Maricopa County Treasurer is responsible for collecting property taxes for all governmental entities within the County. The County levies the property taxes due to the District in August. Two equal installments, payable in October and March, become delinquent after the first business days in November and May. During the year, the County also levies various personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later. A lien assessed against real and personal property attaches on the first day of January preceding the assessment levy.

Property taxes are recognized as revenues in the fiscal year they are levied in the government-wide financial statements and represent a reconciling item between the government-wide and fund financial statements. In the fund financial statements, property taxes are recognized as revenues in the fiscal year they are levied and collected or if they are collected within 60 days subsequent to fiscal year-end. Property taxes not collected within 60 days subsequent to fiscal year-end or collected in advance of the fiscal year for which they are levied are reported as unavailable revenues.

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of unavailable revenue reported in the governmental funds were as follows:

	U	Inavailable
Delinquent Property Taxes Receivable:		
General Fund	\$	986,564
Unrestricted Capital Outlay		73,762
Debt Service Fund		249,432
Total	\$	1,309,758

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### A. Assets (Continued)

#### 4. Capital Assets

Capital asset activity for the year ended June 30, 2021 was as follows:

	Beginning	Ending		
	Balance	Increases	Decreases	Balance
Governmental Activities:				
Capital Assets, Not Being Depreciated:				
Land	\$ 1,748,080	\$ -	\$ -	\$ 1,748,080
Construction in Progress	21,551,507	14,546,271	(18,560,754)	17,537,024
Total Capital Assets, Not Being Depreciated	23,299,587	14,546,271	(18,560,754)	19,285,104
Capital Assets, Being Depreciated:				
Land Improvements	22,517,227	4,233,616	(155,523)	26,595,320
Buildings and Improvements	244,904,707	19,574,725	(3,737,485)	260,741,947
Vehicles, Furniture, and Equipment	31,588,760	1,179,117	(2,921,669)	29,846,208
Total Capital Assets, Being Depreciated	299,010,694	24,987,458	(6,814,677)	317,183,475
Accumulated Depreciation for:				
Land Improvements	(8,448,246)	(1,221,555)	100,535	(9,569,266)
Buildings and Improvements	(80,540,637)	(7,010,076)	2,300,437	(85,250,276)
Vehicles, Furniture, and Equipment	(17,855,722)	(2,226,416)	2,662,188	(17,419,950)
Total Accumulated Depreciation	(106,844,605)	(10,458,047)	5,063,160	(112,239,492)
Total Capital Assets, Being Depreciated, Net	192,166,089	14,529,411	(1,751,517)	204,943,983
Governmental Activities Capital Assets, Net	\$ 215,465,676	\$ 29,075,682	\$ (20,312,271)	\$ 224,229,087

Depreciation expense was charged to functions/programs as follows:

#### **Governmental Activities:**

Instruction	\$ 7,822,533
Support Services:	
Students and Staff	415,962
General Administration	479,928
Operation and Maintenance of Plant	159,047
Student Transportation	1,397,054
Operation of Noninstructional Services	183,523
Total Depreciation Expense	\$ 10,458,047

#### 5. Construction Commitments

At year end, the District had contractual commitments related to the renovation and reconstruction of several schools. At year-end, the District had spent \$17.5 million on the projects and had estimated remaining contract commitments of \$20.8 million. These projects are being funded with adjacent ways funds, bond proceeds, and School Facilities Board grants.

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### B. Interfund Receivables, Payables and Transfers

Interfund receivables and payables for the year ended June 30, 2021, were made to eliminate deficit cash balances at year and end and consisted of the following:

		Due From			
		Special			
	Projects				
Due To		Fund			
Conoral Fund	¢	2.075.052			
General Fund	<u> </u>	2,975,053			

Interfund transfers for the year ended June 30, 2021 consisted of the following:

			Tra	nsfers Out						
		Special								
	Projects Governmental				Projects		Governmenta			
Transfers In	Fund			Funds	Total					
General Fund	\$	318,800	\$	275,000	\$	593,800				

The transfers from the Special Projects Fund and Nonmajor Governmental Funds to the General Fund were made to record the District's indirect costs on grants passed through the Arizona Department of Education. The District did not exceed the approved indirect cost rate on any grants.

#### C. Lease of District Property

The District leases land to a third party under the provisions of a long-term lease agreement classified as an operating lease. Annual rental revenue from the lease is recognized in the General Fund. The lease has a remaining noncancellable lease term of 19 years through June 30, 2040. The lease has renewal options to extend the lease through June 30, 2050, and June 30, 2060. As of June 30, 2021, the renewal options have not been exercised.

The future minimum payments required under the lease at June 30, 2021 are as follows:

Year Ending June 30,	Amount
2022	\$ 286,000
2023	286,000
2024	286,000
2025	286,000
2026	286,000
2027-2031	1,452,000
2032-2036	1,540,000
2037-2040	 1,232,000
	\$ 5,654,000

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### D. Short Term Debt

Revolving Line of Credit – The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of aid and property tax revenues. At year end, the District had \$10.0 million in unused line of credit.

#### E. Long-Term Obligations

The District had long-term bonds payable to provide funds for the acquisition and construction of major capital facilities. The District issued debt to refund earlier obligations with higher interest rates. The bonds are both callable and noncallable with interest payable semiannually. The principal and interest paid on the bonds are recorded in the Debt Service Fund. All bonds refunded in previous years have been redeemed. Compensated absences, pensions and OPEB are paid by the applicable fund where each employee is regularly paid, primarily the General Fund.

General obligation bonds currently outstanding are as follows:

Purpose	Interest Maturity Rates Dates		Original Issue Amounts			Amount Outstanding	_	Oue Within One Year
Refunding Bonds, Series 2007	4.00-5.00%	7/1/21-25	\$	16,550,000	\$	9,140,000	\$	115,000
School Improvement Bonds, Project of 2009, Series 2015C	2.00-3.00%	7/1/21-23		37,560,000		5,330,000		1,745,000
Refunding Bonds, Series 2015	3.00-4.00%	7/1/21-25		27,500,000		27,090,000		6,585,000
School Improvement Bonds, Project of 2016, Series 2017A	3.5-5.00%	7/1/21-30		47,875,000		39,275,000		3,500,000
School Improvement Bonds, Project of 2016, Series 2019B	3.00-5.00%	7/1/21-32		47,980,000		47,980,000		535,000
Refunding Bonds, Series 2020	4.00-5.00%	7/1/21-27		10,030,000		10,030,000		800,000
Total General Obligation Bonds Payable			\$	187,495,000	\$	138,845,000	\$	13,280,000

Changes in long-term obligations for the year ended June 30, 2021 are as follows:

	July 1, 2020	Additions	Retirements			une 30, 2021		Due Within One Year
Governmental Activities:								
Bonds Payable:								
General Obligation Bonds	\$ 152,320,000	\$ -	\$	(13,475,000)	\$	138,845,000	\$	13,280,000
Premium on Bonds Payable	 17,762,526	 -		(1,952,028)		15,810,498		
Total Bonds Payable	 170,082,526	-		(15,427,028)		154,655,498		13,280,000
Other Liabilities:								
Compensated Absences	3,822,718	1,804,439		(1,687,552)		3,939,605		1,678,766
Net OPEB Liability	12,345,097	5,867,083		-		18,212,180		-
Net Pension OPEB Liability	-	520,559		-		520,559		-
Net Pension Liability	 98,661,254	 19,890,261				118,551,515		-
Total Other Liabilities	114,829,069	 28,082,342		(1,687,552)	_	141,223,859	_	1,678,766
Governmental Activities								
Long-Term Debt	\$ 284,911,595	\$ 28,082,342	\$	(17,114,580)	\$	295,879,357	\$	14,958,766

The following table summarizes the District's debt service requirements on long-term bonds to maturity at June 30, 2021.

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### E. Long-Term Obligations (Continued)

	Governmental Activities								
Year Ending June 30,		Principal		Interest					
2022	\$	13,280,000	\$	6,035,975					
2023		14,390,000		5,548,100

#### NOTE 4 OTHER INFORMATION

#### A. Risk Management

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### A. Risk Management (Continued)

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District continues to carry commercial insurance for other risks of loss, including life, dental and short-term disability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District established the Insurance Benefit Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to employee health. In addition, employee withholdings for other insurance coverages are processed through this fund. Under this program, the Fund provides coverage for up to a maximum of \$200,000 for each claim, not to exceed an annual aggregate percentage of 125%. The Fund purchases commercial insurance for claims in excess of this coverage. Settled claims have not exceeded this coverage in any of the past three fiscal years.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay- outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses regardless of whether allocated to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. All unpaid claims at year end are expected to be paid within one year. Changes in the balances of claims liabilities during the past two years are as follows:

	2021	2020
Beginning Unpaid Claims	\$ 874,227	\$ 1,485,242
Claims Incurred and Changes in Estimate	(11,578,775)	(10,401,176)
Claims Paid	8,962,910	9,790,161
Ending Unpaid Claims	\$ 1,741,638	\$ 874,227

2020

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### **B. Retirement Plans**

#### **Cost Sharing Employer Plans**

The District contributes to the Arizona State Retirement System (ASRS). The plan is a component unit of the state of Arizona.

At June 30, 2021, the District reported the following amounts related to ASRS:

	Governmental
Statement of Net Position and Statement of Activities	Activities
Net Pension Liability	\$ 118,551,515
Deferred Outflows of Resources	22,938,416
Deferred Inflows of Resources	-
Pension Expense	12,578,649

The District's financial statements present an OPEB asset and liability as it relates to the District's health insurance premium benefit plan and long-term disability plan. These balances are not significant to the District's financial statements and are therefore omitted in this note.

#### **Arizona State Retirement System**

**Plan Description** – District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit (OPEB); and a cost-sharing, multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at www.azasrs.gov.

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### **B.** Retirement Plans (Continued)

#### **Arizona State Retirement System (Continued)**

**Benefits Provided** – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement

	I Vetil etti	CIIL
	Initial Membership Date:	
	Before	On or After
	July 1, 2011	July 1, 2011
Years of Service	Sum of years and age equals 80	30 years, age 55
and Age Required	10 years, age 62	25 years, age 60
to Receive Benefit	5 years, age 50*	10 years, age 62
	any years, age 65	5 years, age 50*
		any years, age 65
Final Average	Highest 36 Consecutive	Highest 60 consecutive
Salary is Based On	months of last 120 months	months of last 120 months
Benefit Percentage		
Per Year of Service	2.1% to 2.3%	2.1% to 2.3%

<sup>\*</sup> With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2021, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.04% of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 11.65% of the active members' annual covered payroll. In addition, the District was required by statute to contribute at the actuarially determined rate of 10.14% of annual covered payroll of retired members who worked for the District in positions that would typically be filled by an employee who contributes to the ASRS.

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### **B.** Retirement Plans (Continued)

#### **Arizona State Retirement System (Continued)**

The District's contributions to the pension plan for the year ended June 30, 2020, were \$8,841,222.

During the fiscal year ended June 30, 2021 the District paid for ASRS pension contributions as follows: 80% from the General Fund, 8% for the Special Projects Fund and 12% from the other governmental funds.

**Pension Liability** – The net liabilities were measured as of June 30, 2020. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2019, to the measurement date of June 30, 2020. The District's proportion of the net liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020, and the change from its proportions measured as of June 30, 2019.

The District's reported liability of \$118,551,515 at June 30, 2021, increased by \$19,890,261 from the District's prior year liability of \$98,661,254 because of changes in the ASRS' net pension liability and the District's proportionate share of that liability. The ASRS' publicly available financial report provides details on the change in the net pension liability.

The District's proportion of the net pension liability was based on the District's FY 2020 contributions. The District's proportion measured as of June 30, 2020, was 0.68422%, which was an increase of 0.00619% from its proportion measured as of June 30, 2019.

**Pension Expense and Deferred Outflows/Inflows of Resources** – For the year ended June 30, 2021, the District recognized pension expense for ASRS of \$12,578,649. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows	Inflows
	of Resources	of Resources
Differences between expected and actual experience	\$ 1,072,504	\$ -
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings		
on pension plan investments	11,434,432	-
Changes in proportion and differences between District's		
contributions and proportionate share of contributions	1,590,258	-
Contributions subsequent to the measurement		
date	8,841,222	<u> </u>
Total	\$ 22,938,416	\$ -

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### **B.** Retirement Plans (Continued)

#### **Arizona State Retirement System (Continued)**

The \$8,841,222 reported as deferred outflows of resources related to ASRS pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	 Amount	
2022	\$ 2,634,301	
2023	3,790,327	
2024	4,135,956	
2025	3,536,610	

**Actuarial Assumptions** – The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial Valuation Date	June 30, 2019
Actuarial Roll Forward Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5%
Projected Salary Increases	2.7 - 7.2%
Inflation	2.3%
Permanent Benefit Increase	Included
Mortality Rates	2017 SRA Scale U-MP

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS plan investments was determined to be 7.50% using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### **B.** Retirement Plans (Continued)

#### **Arizona State Retirement System (Continued)**

		Long- i erm
		Expected
	Target	Geometric Real
Asset Class	Allocation	Rate of Return
Equity	50%	6.39 %
Fixed Income - Credit	20	5.44
Fixed Income - Interest Rate Sensitive	10	0.22
Real Estate	20	5.85
Total	100%	

Lana Tarm

**Discount Rate** – The discount rate used to measure the ASRS total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statutes. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the ASRS Net Pension Liability to Changes in the Discount Rate – The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5%) or one percentage point higher (8.5%) than the current rate.

	Current Discount		
	1% Decrease (6.5%)	Rate (7.5%)	1% Increase (8.5%)
District's proportionate share of the net pension liability	\$ 162,117,589	\$ 118,551,515	\$ 82,132,516

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

#### NOTE 4 OTHER INFORMATION (CONTINUED)

#### C. Other Postemployment Benefits

**Plan Description –** Under authority of the Governing Board, the District provides postretirement insurance benefits, for certain retirees and their dependents, in accordance with the plan. The plan is a single-employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. Generally, resources from the General Fund are used to pay for postemployment benefits.

A retiree who was an employee of Tempe Elementary School District immediately prior to retirement and who was hired prior to July 1, 2004, is eligible for health benefits. The number of participants as of the effective date of the biannual OPEB valuation, follows.

Retirees Receiving Benefits	105
Active Employees	302
Total	407

**Benefits Provided** – The District provides postretirement insurance (medical and dental) benefits (OPEB), in accordance with the District's Post Employment Benefit Plan, to eligible employees. Currently, 105 retirees meet those eligibility requirements.

**Funding Policy** – The District contributes health premiums for employees who retire with 10 years of service and retire before July 1, 2009, or 20 years of service and retire on or after July 1, 2009 and has reached age 55. Participation ceases at age 65 or age 70 for administrators who retire prior to July 1, 2009. Benefits cease when the retiree's benefit ceases. The District's regular insurance providers underwrite the retiree policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. The District currently pays for postemployment benefits on a pay-asyou-go basis. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

**Contributions** – The District contributes \$6,788 for employees who retired with 10 years of service before July 1, 2009, or employees who retire with 20 years of service and retire on or after July 1, 2009 and have reached age 55. For the current fiscal year, the District contributed \$1,211,086 for these benefits. The District's regular insurance providers underwrite the retiree policies. Retirees may not convert the benefit into an inlieu payment to secure coverage under independent plans. A separate financial report is not issued for the plan.

**Total OPEB Liability –** The District's total OPEB liability of \$18,212,180 had a measurement date of June 30, 2020, based on an actuarial valuation dated June 30, 2020.

### TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3 NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2021

### NOTE 4 OTHER INFORMATION (CONTINUED)

#### C. Other Postemployment Benefits (Continued)

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of the occurrence of events far into the future. Actuarially determined amounts are subject of continual revision as actual results are compared to past expectations and new estimates are made about the future.

The total OPEB liability as of June 30, 2021, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method Entry Age, level percent of pay

Salary Increases 2.50% Discount Rate 2.21%

Health Care Trend Rates 19.50% to 2022 and 7.75% to 2023, graded down to 4.50% over 13 years.

Mortality rates were based on the RP-2014 Employee Mortality Table, Projected to 2017 using the Ultimate MP 2017 unisex scales for active employees. Morality rates for retirees were based on the 2017 State Retirees of Arizona (SRA) Mortality Table, projected to 2017 using the Ultimate MP 2017 Unisex scales for retired employees. Disabled Mortality Rates were based on RP-2014 disabled retiree mortality table.

**Changes in Total OPEB Liability –** The following table shows the changes in OPEB liability as of June 30, 2021.

Balances at June 30, 2020	\$ 12,345,097
Changes for the Year:	
Service Cost	208,743
Interest	421,254
Differences Between Expected	
and Actual Experience	1,981,259
Change in Assumptions	4,300,819
Benefit Payments	(1,044,992)
Net Changes	5,867,083
Balances at June 30, 2021	\$ 18,212,180

### TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3 NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2021

### NOTE 4 OTHER INFORMATION (CONTINUED)

### C. Other Postemployment Benefits (Continued)

**Discount Rate** – The discount rate used to measure the OPEB liability was 2.21%. The discount rate decreased from 3.50% to 2.21% based on changes to the Bond Buyer 20 index municipal bond rate from June 30, 2019 to June 30, 2020. The discount rate was determined by using a yield or index rate for 20-year tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of June 30, 2020.

**Sensitivity Results –** The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

	1'	% Decrease	D	iscount Rate	•	1% Increase
		(1.21%)		(2.21%)		(3.21%)
Net OPEB Liability	\$	19,494,699	\$	18,212,180	\$	17,011,537

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher that the current healthcare cost trend rates:

			Hea	Ithcare Cost				
	1%	Decrease in		Current	19	6 Increase in		
	Hea	lth Care Cost	Hea	Ith Care Cost	Hea	Health Care Cost		
	T	rend Rates	Rates Trend Rates Trend			rend Rates		
Net OPEB Liability	\$	16.847.765	\$	18.212.180	\$	19.735.558		

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – For the year ended June 30, 2021, the District recognized OPEB expense of \$992,184. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
Description	Resources	Resources
Change of Assumptions	\$ 3,511,554	\$ 855,547
Differences Between Expected and Actual Experience	1,827,148	1,231,357
Employer Benefits Paid Subsequent to the Measurement Date	1,211,086	
Total	\$ 6,549,788	\$ 2,086,904

### TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3 NOTES TO BASIC FINANCIAL STATEMENTS JUNE 30, 2021

### NOTE 4 OTHER INFORMATION (CONTINUED)

#### C. Other Postemployment Benefits (Continued)

The \$1,211,086 reported as deferred outflows of resources related to OPEB resulting from District benefit payments made subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Future
Year Ending June 30,	Recognition
2022	\$ 368,060
2023	655,862
2024	939,049
2025	1,251,359
2026	37,468
Thereafter	_

#### D. Subsequent Events

On October 27, 2021, the District issued School Improvement Bonds, Project of 2016, Series C (2021) bonds in the amount of \$28,950,000. These bonds are due in annual principal installments ranging from \$1,000,000 to \$4,500,000, plus semi-annual interest ranging from 4 percent to 5 percent through July 1, 2034.

### TEMPE ELEMENTARY SCHOOL DISTRICT NO. 3 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

#### NOTE 1 COST SHARING PENSION PLAN

Information prior to the measurement date (June 30, 2014) was not available. Additional years' information will be displayed as it becomes available.

#### NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The District's adopted budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, with the following exceptions: the General Fund as reported in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances includes the District's Maintenance and Operation Fund in addition to several other District funds as required by GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. However, for budgetary purposes, the District prepares a separate Maintenance and Operation Fund budget. Therefore, the following adjustments are necessary to present actual revenues, expenditures, other financing sources and uses, beginning fund balance and ending fund balance on a budgetary basis in order to present only the activity of the District's Maintenance and Operation Fund for budgetary purposes.

	Total Revenues		Total Expenditures		Other Financing Sources/Uses		Beginning Fund Balance		Ending Fund Balance	
Combined Statement of Revenues, Expenditures, and Changes in Fund Balances	\$ 93	2,420,079	\$	91,198,837	\$	593,800	\$	15,416,081	\$	17,260,615

Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual Budgetary Basis	\$ 89	9,110,554	\$	87,818,312	\$	<u>-</u>	\$	12,995,378	\$	14,317,112

### COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

### NONMAJOR GOVERNMENTAL FUNDS

#### **SPECIAL REVENUE FUNDS**

*Instructional Improvement Fund* – accounts for the revenues and expenditures for State apportioned Indian Gaming monies.

Classroom Site Fund – accounts for the revenues and expenditures of State apportioned education sales tax monies.

Other Special Revenue Fund – accounts for the revenues and expenditures of the following activities: civic center, community school, extracurricular activity fee tax credit, fingerprinting and textbooks

Food Service Fund – accounts for the financial operations of preparing and serving regular and incidental meals and snacks in connection with school functions.

Student Activities Fund – accounts for monies raised by students to finance student clubs and organizations.

#### **CAPITAL PROJECTS FUND**

Adjacent Ways Fund – accounts for monies received to finance such improvements as public streets or alleys adjacent to school property.

Building Renewal Fund – accounts for monies received from the School Facilities Board that are used for infrastructure or for major upgrades, repairs, or renovation to areas, systems, or buildings that will maintain or extend their useful life.

### STATISTICAL SECTION (UNAUDITED)

This section of the Tempe Elementary School District No. 3's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

#### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

See the table of contents for page numbers of the schedules that encompass the above sections.
